5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

Installation of approximately 14,400 linear feet of 6-inch, 8-inch, and 12-inch water lines.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Work under this contract shall be completed within 180 calendar days after the NTP is issued.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The goal of this project is to replace or rehabilitate water lines that have a high break frequency and, in some cases, increase the size of currently under-sized water lines. Replacement of these water lines will decrease the burden on water maintenance operations. The new lines constructed under this project should eliminate the pattern of frequent water line breaks and improve Department revenue through reducing unbilled water loss.

The Neighborhood Liaison(s) will be contacted and informed of this project during the construction phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**
