Ms. Sonia Krammes  
IT Account Manager  
City of Columbus  
50 W. Gay Street  
Columbus, Ohio 43215

Subject: Sole-sourcing Justification to Provide Additional Services for the Pretreatment Information Management System (iPACS)

Dear Ms. Krammes:

The City has implemented the iPACS system and associated software modules licensed from enfoTech and will require services for effective and continuous operation of the system. This letter is submitted to justify selection of enfoTech to provide additional services quoted under the change request 2018-01 to migrate City's FOG/OWS data to the iPACS database.

The iPACS System was developed by enfoTech. enfoTech owns the iPACS Title and is the only entity that is authorized to license the software systems and to provide technical services. We do not have any local distributor or service agent for the sale or support of the software.

Please contact me if you have any questions.

Sincerely,

Tony Jeng  
Executive Vice President
