RE: Big Run Water Pressure District Improvements
1.25 MG Water Tank Improvements

Dear Mr. Honsey:

Thank you for your letter of December 21, 2009. We agree in principle with cost sharing where there is shared benefit, and agree there is a need to identify the appropriate share. Our water agreement envisions such coordination.

Our engineering staff has spent considerable time analyzing the figures mentioned in your letter. We believe that a meeting between your engineers and our staff is necessary to understand and identify the acreage calculations and to identify the appropriate shares.

Also, the equipment and facility enhancements are necessary to allow Columbus to operate the tank and water system according to our water agreement and for the benefit of the water system. We believe that these costs should be included in the shared cost of the tank.

Please contact Rick Westerfield, Administrator, Division of Power & Water at 645-7020 if you have any further questions.

Sincerely,

Tatyana Arsh, P.E.,
Director
