

Zac Romer-Jordan

Project Manager

VP \ AIA

zac@bbcodesign.com

Zac is a registered architect in the State of Ohio with over 15 years of work experience. His project experience ranges from mixed-use / multi-family projects to public facilities and early childhood / educational work. He has also had the unique opportunity to work on the exhibit design of various museums, education centers, and attractions throughout the country. Zac's broad range of experience has allowed him to build strong, trusted working relationships with public entities, private developers, and non-profit groups.

Zac's strength lies in his keen attention to design, details, and construction. He is equally comfortable in all phases of design from early conceptual design to design documentation and through the end of construction. Zac oversees BBCO's document standards and takes pride in BBCO's reputation for well-coordinated, accurate, and detailed documents in both constructability and code compliance.
