Paula J. Hall  
City of Columbus  
1111 East Broad Street  
Columbus, Ohio 4320

Dear Paula:

This letter is in response to your request for Unisys to provide information to assist the City of Columbus (City) in its decision to make a sole source award to Unisys for the licensing and support for the Libra 460 operating software. While the decision to issue a sole source award must be made solely by the City in accordance with its procurement procedures, Unisys provides the following information to assist you in reaching your decision.

The ClearPath Libra 460 platform uses the MCP operating environment to support a complete customer solution. Unisys developed the MCP operating environment and continues to provide full support for it. The Libra 460 and MCP operating system technology is unique to Unisys. Further, Unisys is the only vendor that can both, license and fully support its proprietary MCP software products that the City utilizes for its ClearPath Libra 460 system.

Please let me know if you have any further questions regarding this. Thank you.

Sincerely,

UNISYS CORPORATION
