5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

This project will update the current PAWP Concept Plan document, and evaluate activities within the general vicinity of the PAWP Wellfield. In addition to the Concept Plan Update, this project will also include evaluation of the proposed wellfield expansion site in Pickaway County, locating potential new well sites in Franklin County, and examining the benefits and risks of using the City's current wells versus becoming a surface water plant.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The design professional will begin after the notice to proceed is given. It is estimated that this project can be completed in the third quarter of 2016.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

This project is necessary to prepare for anticipated raw water demand for the Parsons Avenue Water Plant (PAWP). The PAWP is an essential and integral component in the Columbus area water supply and treatment infrastructure. Adequate supply of water is essential to economic growth and development.

Public informational meetings may be required as a part of this project, but will depend on the results and recommendations of the initial Planning Phase. Regulatory agencies will be notified of the proposed work as appropriate.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

This contract is proposed to be entered into for an amount of \$897,906.69 that is estimated to be sufficient to complete the work included in the scope of services. No contract amendments are anticipated.
