

**Environmental Systems Corporation**

September 11, 2014

To: Southerly WWTP – Debbie Ioia  
910 Dublin Road, Room 3032  
Columbus, OH 43215

SUBJECT: SOLE SOURCE LETTER

Dear Debbie,

Environmental Systems Corporation (ESC) of Austin, Texas, is the sole manufacturer of ESC hardware and E-DAS software products. ESC sells its hardware and software products to the end-user and does not sell its hardware or software through distributors or wholesalers.

There are no authorized third-party vendors except VARs (value-added resellers) who can only sell the software with other value-added system components (meteorological instruments, gas analyzers, etc.).

As ESC's software is considered intellectual property, ESC is the only legal source for ESC software upgrades and supplemental telephone service and support. These services are provided on a contractual basis by ESC as the original source vendor and any other services from any other source would be considered to be contrary to normal ESC policy and procedures.

ESC's federal tax ID code is 62-0807987.

Regards,

Toddy Anderson

Sales Administration Assistant
