RE: Razorooter® Licensing Information

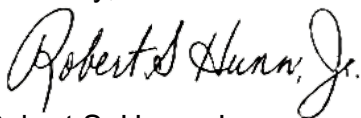

Dear Mr. Redmond:

RAZOROOTER®, which contains the active ingredient, diquat dibromide ("diquat"), is a proprietary product of Duke's Root Control, Inc. and is currently the only diquat-based, sewer root control product registered with the U.S. Environmental Protection Agency (EPA Registration No. 94625-3).

At the present time, Duke's Root Control, Inc. is the only commercial applicator licensed to apply RAZOROOTER® in OH. Duke's is registered with the Ohio Department of Agriculture, and Duke's applicators are certified with this same agency to perform pesticide applications to sewers.

If you have any questions or require additional information, please contact us at 1-800-447-6687.

Sincerely,

Robert S. Hunn, Jr.
