### **Career Highlights**

Patrick is the National Group Manager for Business Banking Credit Products with Chase. This team is responsible for the innovation, development, and growth of all loan and line of credit products to small business customers.

Patrick has over 20 years experience in banking with various relationship management, credit administration, and operations roles. Previously, Patrick was a Business Banking Area Manager for Chase's Central Ohio Relationship Manager Sales Team. This Team was responsible for the management of over 1,000 small business owners and their Business Banking relationships. Prior to that role, Patrick created and managed Centralized Business Credit Approval and Delivery serving three States. Also, he managed the National Business Credit Administration Team responsible for strategic initiatives, communication, credit origination and documentation systems, process innovation, and information management.
