No other product has the unique specifications that are needed by the Office of Violence Prevention and therefore no effort was made to source an alternative software platform. The Apricot software is unique because it is a more succinct and robust case management system designed specifically for non-profit organizations and public sector agencies. The software will increase efficiency, improve service delivery and provide data-driven insights to help CVR/OVP fulfill our overall mission

3. Describe efforts to determine/verify that the company is the sole source:

Internet searches verify that Bonterra Tech LLC is the sole authorized provider of Apricot.

4. Indicate how the price or fee structure was determined:

The price is standard subscription cost for public entities and directly quoted from the vendor based on number of users and includes training, support, and online dashboard capabilities.
