To: Mr. Tunks
Procurement Specialist, City of Columbus Ohio
RE: Envirosight LLC

Mr. Tunks

Envirosight, LLC has worked very hard to align itself with the premier distributors in the underground infrastructure maintenance equipment industry. To that end, we have partnered with Best Equipment Company, in the states of Ohio, Indiana and Kentucky to provide our customers equipment, parts, and after sale service.

Best Equipment Company is the **sole** contractual provider of Envirosight products, parts as well as after sale service in the states of Ohio, Indiana and Kentucky. This includes, but is not limited to, our Rovver X and Rovver X SAT camera systems, Quickview zooming and manhole inspection system, the Quickview 360 inspection system, Jetscan video nozzles, Verisight push camera systems, Cleverscan manhole inspection systems and Digisewer sidewall scanning and evaluation technology.

Thank you and please feel free to contact me with any questions or concerns that may arise.

Best regards,

Steve Sebastian
Regional Sales Manager
Envirosight, LLC
