FYDA Freightliner Columbus, Inc. – MAJ
ESEC Corp dba Columbus Peterbilt – MAJ

A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

This equipment will be used by Water Distribution Maintenance Section when job site conditions do not favor the traditional use of a backhoe loader. Hydro excavation is a non-mechanical, non-destructive process that uses pressurized water and industrial strength vacuum to simultaneously excavate and evacuate soil. As hydro excavation safely breaks up soil, the soil and water slurry is conveyed by vacuum to a debris tank.

A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

N/A

An estimate of the full estimated cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

\$355,497.00
