ALL SECTIONS OF THIS FORM MUST BE COMPLETED

Evan Huddleson
803 Franklin Ave Columbus OH, 43205
614-634-2708

To Whom it May Concern,

My name is Evan Huddleson, I am a local entrepreneur and I am interested in filling the vacant seat for NEAC District III. I grew up in the greater Columbus area throughout the 90's and 2000's. After graduating from Ohio Wesleyan in 2012 I moved out to Silicon Valley to fulfill my dream of creating beneficial technologies and running my own business. My drone company, HaloDrop, successfully performed the first inspections on the Bay Bridge and later worked with the team for the Golden Gate bridge. I learned a lot working with city planners, builders, government officials, and NGO's to make my vision of autonomous flying robots a reality. The benefit of our persistence with our technology was that we were able to prove it is more effective and safe to use machines where people are in danger, rather than replacing all people with machines on a work site. It's a contentious issue, with autonomous robotics playing a larger role in our day to day lives, but we were able to bring opposing sides together and create a solution that benefited everyone. I hope to make the most of my diplomatic skills and understanding of business, technology, and government to benefit all members of our community in Old Town East.

Our city has gone through an incredible amount of changes over the years, benefitting some more than others at times. I wish to fill this seat to bring a unique perspective to our very special neighborhood and help make sure all voices are heard. As a person of mixed race, I've always prided myself on looking past color and culture to see human beings as they are and provide help where needed. Our differences should unite us as a community, and help us find our strengths within one another, rather than divide us. With our wonderful city continuing to grow at it's current rate, and investments being made specifically here in Old Town East, I would love to help our leaders navigate and understand different proposals and initiatives moving through our neighborhood so that they may benefit all members of our community. I believe that our businesses and community have a mutual interest in growing together to provide more opportunity for the people of Columbus and Old Town East. If we work together, I believe we can continue to make Old Town East not just a wonderful place to live, but a great place to grow and develop as a community of creative, independent, and compassionate individuals.

Thank you for your consideration,

Evan J. Huddleson

Education: B.A. Philosophy, B.A. Political Science, B.A. Pre-law: May 2012 -
Ohio Wesleyan University - Delaware, OH

Harvard Business School Summer Venture in Management Program: June 2011
Cambridge, Massachusetts
