United Consultants & Assoc	. 31-0988131 : inactive	Columbus, OH	?

Note: the above listed RFP was advertised for the General Engineering Services - Supply Group, Project 690446. The work for this project was initiated under Project 690446, however as the scope of this task was fully evaluated it was determined a separate contract would be required due to necessity to revise the limitation of liability contract terms due to the nature of the work. No separate RFP was advertised for this specific project (Project 690446-100001).

2. What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).

The RFP process was utilized in selecting the consultant for the General Engineering Services – Supply Group, Project 690446. This same consultant is being utilized for "General Engineering Services – Environmental Investigation Services Griggs Reservoir, as this is a continuation of services initiated under Project No. 690446.

3. The highest ranking bidders.

- 1. CH2M Hill, Inc.
- 2. URS Corporation
- 3. Malcolm Pirnie
- 4. MS Consultants

4. Complete address, contact name and phone number for the successful bidder only.

CH2M Hill

1103 Schrock Rd., Suite 400

Columbus, OH 43229

Greg Mosure P.E., (614) 888-3100

5. <u>A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.</u>

The Consultant will assist the City of Columbus with its response to the recent mercury discovery at the Griggs Reservoir. The scope of work will include performance of environmental activities in accordance with the Ohio EPA Voluntary Action Program (VAP). The environmental scope contains the steps necessary to perform the action that will result in the completion of a No-Further-Action letter submittal for the City to submit to the OEPA under the VAP. The steps include:

- Supporting the City in response to OEPA emergency removal action requests
- Preparation of draft and final storm water management plans for City internal use
- Performing due diligence activities (Phase 1) to identify historical info. for the property that may be an indication of environmental impacts
- Perform sampling activities in phases to determine the extent of impact of mercury originating at the source area and moving outward away from the source area
- Preparation of bid documents and providing contract administration services for source area soil removal activities
- Preparation of a No-Further-Action letter submittal for the City to consider submitting to OEPA to obtain covenant-not-to-sue

6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

Initial tasks began as part of the General Engineering Services – Supply Group, Project 690446 in September 2009. The remainder of the proposed work will be performed as soon as this authorizing legislation is approved and a contract executed and will continue through November 2011.

7. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Due to the nature of this work a future contract modification may be required depending on the results of the environmental testing. It is not possible to determine the cost of a future modification at this time.
