3. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

The purpose of this project is to construct necessary improvements to the water distribution system in the Near East Area. The improvements identified in the scope of work will replace undersized water mains that currently provide low pressures and insufficient fire flows. The improvements will also replace mains that have high break histories and require frequent maintenance. This project includes eight individual sites located at Hamilton Avenue, Monroe Avenue, Eighteenth Street, Gustavus Lane, Mansfield Street, Parkwood Avenue, Harvard Avenue and Miller Avenue for a total of approximately 7,750 feet of water line ranging in size from 6-inch to 12-inch diameter.

4. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Part of the Engineer's contract is to provide Record Drawings after the construction of this project. Therefore the Contract completion date can not be determined at this time.

5. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

\$134,179.00
