

SERVICE STATEMENT
AN18-011
1.957 +/- acres in Franklin Township
Nael Yasin

The following statements were included in the Council approved service ordinance for this annexation.

1.957+/- acres in Franklin Township upon the annexation of said area to the city of Columbus:

Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

Sanitation: Division of Refuse Collection personnel have made a site visit and the division has no objection to this request. If a multi-family building or complex is built, all requirements of Title 13 would need to be followed in order to qualify for city-provided multi-family refuse collection service.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Water: The proposed annexation site will receive water service from the Division of Water from either a 20" water main located within Frank Road or an 8" main located within Brown Road. The connection to water service will be made at the owner's expense.

Sewers: All sanitary and storm sewers required shall be constructed privately by the owners and developers at their own cost and expense with no cost to the City.

Sanitary: Sanitary sewer service for the proposed development is available to the site through a combination of an 18" sanitary line on the west side of Brown Road and a 21" sewer on north side of Frank road.

Storm: All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development.

All sanitary and storm sewers required shall be constructed privately by the owners/developers at their own expense with no cost to the city.
