City of Columbus – Division of Electricity  
Dept. of Technology  
P.O. Box 2949  
Columbus, Ohio 43216  
United States

This letter is to confirm that Speedware Inc. is the sole owner of the Speedware Version 5 to Version 7 Migrator Utility, and therefore the sole vendor capable of licensing a true Speedware V5 – V7 migration. Speedware Inc. is solely responsible for the development, distribution, support and maintenance of the Speedware Version 5 to Version 7 Migrator Utility.

Additionally, I wish to inform you that Speedware Inc. has not made the Version 5 to Version 7 Migrator Utility available to any distributors or resellers. Therefore no other party may lawfully license this software to end users or deploy it in a consulting engagement.

Any company, aside from Speedware Inc., possessing or utilizing this application migration tool in a commercial or consulting setting without a license from Speedware, is acting unlawfully. Speedware will strive to enforce its legal rights against any unauthorized use of its intellectual property.

Without the Speedware Version 5 to Version 7 Migrator Utility, an actual application migration is impossible as it is necessary to rewrite, line by line, any Speedware 4gl Version 5 applications into Speedware 4gl Version 7. Therefore, regarding the City of Columbus Speedware V5 – V7 Migration proposal, Speedware Inc. is the sole vendor capable of performing an application migration of this nature.

Andy Kulakowski  
Vice President and General Manager  
Speedware Inc.
