Subject: Semi trailer specs

John,
Find attached specifications for two Framed Aluminum Half Round semi trailers for transporting sewage sludge cake between WWTP's. Note that we have two trailers with the only differences being the type of UHMW liner to reduce sludge adhesion to the trailer bed and tarp color. My intention is to test two liners for performance so we have the information for future bids.

Please let me know if you have any questions and/ or your approval to forward to Purchasing for advertisement.
Thank you,
