

Information to be included in all Legislation authorizing entering into a Contract:

- 1. The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>City/State</u>	<u>Status</u>
Franklin County Engineer's Office (Project was publicly bid by Franklin County.)	31-6400067/033 - N/A	Columbus, OH	N/A

- 2. What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

The Franklin County Engineer's Office competitively bid this project.

- 3. List the ranking and order of all bidders.**

N/A

- 4. Complete address, contact name and phone number for the successful bidder only.**

Franklin County Engineer's Office
970 Dublin Road
Columbus, Ohio 43215
Ted Beidler, P.E., Project Coordinator (614) 462-3072

- 5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

A 24-inch water main was installed along Fisher Road and Hague Avenue during the Franklin County Engineer's Office construction of the road improvement on those streets. The City of Columbus Water Distribution Engineering Section had identified a need to install a new 24-inch water main in this area to reinforce its ability to deliver water to the north west part of the City. By partnering with the Franklin County Engineer's office, this water line was constructed with less inconvenience to the public and at a lower cost than if the two jobs were bid and constructed separately.

- 6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

Beginning date was 7/9/13; Shelly and Sands still needs to complete some items for Franklin County, but all water main work has been is completed.

- 7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

By installing this main during Franklin County's project, the impact to the traveling public was reduced. By reducing the traffic impact, the carbon dioxide pollutants released due to increased idling was limited. By installing the water main under Franklin County's contract the City saved the expense of the surface restoration.

- 8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

Total cost of water work: \$1,320,000.00.
