RE: Development Commission  
Alternate Position

Dear Mark:

Our great City faces significant growth challenges and opportunities. The moves we make today create the quality of life for future generations. Thoughtful decisions related to land use planning will assure that our legacy is a positive one. In light of these exciting times, I offer my continued service to the City of Columbus in the form of an alternate position on the Columbus Development Commission.

As you know, I served on the Commission for 11 years, many as Chair. My passion has kept me close to issues related to growth, development, and land planning. Helping to author the Traditional Neighborhood Development (TND) code was especially gratifying. Advocating for initiatives in northwest Columbus, where I make my home, is ongoing. And working professionally as an Architect in many of our City's great neighborhoods, including downtown, is a mainstay in my firm. In fact, my leadership of the Urban Civic Practice Group at DesignGroup is an outgrowth of our commitment to build healthy communities in Central Ohio. Our impact on downtown Columbus speaks to our success. And my role as President-Elect of AIA Columbus keeps me in touch with other design professionals with valuable insights to add.

While I am sure that my time will only be needed sporadically, I commit my sincere efforts to supporting the role of the Commission.

Your consideration is appreciated.

Sincerely,

David A. Brehm, AIA  
Principal
