

ORDINANCE NO. 1514-2006

**Information to be included in all Legislation authorizing
Entering into Contracts:**

The names of all companies bidding, or submitting an RFP or RFSQ
Burgess & Niple, Inc., EMH&T, Inc.

The location by City and State of all companies bidding, or submitting an RFP or RFSQ
Burgess & Niple, Inc. (Columbus, Ohio), EMH&T, Inc.(Columbus, Ohio)

The status, Majority, MBE or FBE, of all companies bidding, or submitting an RFP or RFSQ
All are Majority firms

A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

Preliminary Engineering (I&I Study):

Clean and televise all sanitary and some storm lines within the project boundaries; investigate the area's water-in-basement (WIB) complaints in the past 6 years; build a detailed model of the influent sanitary sewers (including a thorough flow monitoring, and rain gage program); perform "representative" public and private investigations to estimate the impact of all private and public sources on the area's inflow and infiltration (I&I); and use all of these to recommend projects and programs to mitigate I&I and its impact on the area's WIBs.

Design Engineering:

Provide plans and construction specifications to construct and administrate all the projects and programs approved by the City. Design engineering and subsequent construction to be under a separate contract.

Construction & Construction Engineering:

Provide construction and administration for the provision of at least two separate construction projects and programs approved by the City.

A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

Preliminary engineering beginning Oct '06 with data collection programs; cleaning and tv; maintenance investigation; and modeling. Preliminary engineering ends Oct '08, with final report detailing recommendations for I/I mitigation. Design engineering ending 3 years later with final recommendations and an RFP to acquire a design engineer to produce plans and specifications to construct approved recommendations.

An estimate of the full estimated cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Preliminary Engineering (I&I Study & Recommendations) = 3.39 Mil

Design Engineering = 1.26 Mil

Construction and Construction Engineering = 3.45 Mil

Total Costs = 8.1 Mil
