#### <u>Information to be included in all Legislation authorizing entering into a Contract:</u>

## 1. The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.

Name	C.C. No./Exp. Date	City/State	Status
Kenmore Constr. Co.	34-0802152 - 8/3/13	Akron, OH	MAJ
Kokosing Construction Co.	31-1023518 - 2/14/14	Westerville, OH	MAJ
Shook, Inc.	31-0443680 - 7/13/12	Dayton, OH	MAJ
Danis Industrial Constr.	31-1361003 - 4/28/13	Miamisburg, OH	MAJ

#### 2. What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).

Formal competitive bids were opened on March 21, 2012.

#### 3. List the ranking and order of all bidders.

1. Kenmore Constr. Co.	\$1,652,172.80	
2. Kokosing Construction Co.	\$1,845,750.00	
3. Shook, Inc.	\$1,859,550.00	
4. Danis Industrial Constr.	\$1,437,794.40	Non-Responsive

#### 4. Complete address, contact name and phone number for the successful bidder only.

Kenmore Construction Company, Inc.

700 Home Ave.

Akron, Ohio 44310

William A. Scala, President (330) 762-9373

### 5. <u>A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.</u>

Furnishing of all materials, equipment, and labor necessary to provide for the rehabilitation of flocculation equipment for each of the four flocculation basins at the Dublin Road Water Plant. Work shall include: removal of existing flocculation equipment and installation of new paddle wheel assemblies and redwood baffles.

## 6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

Work under this contract shall be completed within 150 calendar days after the Notice to Proceed is issued. Work must be complete prior to scheduled treatment capacity reductions at Hap Cremean Water plant that will be performed in conjunction with HCWP Treatment Improvements Project (690430-1).

# 7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

This construction project will replace the original paddle wheel assemblies and drive shafts in four flocculation basins at the Dublin Road Water Plant. The flocculator drive rehabilitation will preserve the integrity and reliably of the existing flocculation basins for the operations of the water treatment process. The DRWP is an essential and integral

component in the Columbus area water supply and treatment infrastructure. Adequate supply of water is essential to economic growth and development.

As this is a secure site on property owned by the Department of Public Utilities no community outreach or input was sought in the development of the project.

Kenmore Construction Company (the awarded bidder) submitted paperwork with their proposal to indicate that they have a fleet policy for reducing vehicle emissions from its fleet of on and off-road vehicles by means of an anti-idling directive for its construction sites, as well as use of ultra-low sulfur diesel fuel. No significant long term environmental impacts will be due to construction of this project.

### 8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

\$1,652,172.80, which included a 15% contingency construction contract with Kenmore Construction Company, Inc.
