STATEMENT OF HARDSHIP

Columbus City Code Section 3307.10 - Variances by City Council.

CV21-026

City council may grant the following zoning variances:

- A. Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

CV21-026

1408 N. Grant Avenue, Columbus, OH 43201

The 20.75 +/- acre site is the site of the Grant Park development in the Weinland park neighborhood. The site is located on both the east and west sides of N Grant Avenue between E. 5th Avenue and E. 11th Avenue and also portions of the east side of N. 6th Street. Prior to 2015, the east side of N. Grant Avenue was developed with a closed blighted factory. The west side of N. Grant Avenue and east side of N. 6th Street had many vacant lots and some blighted houses. The factory and non-salvageable houses were razed for the development of Grant Park. Grant Park is now almost fully built and consists of new single family dwellings, condominiums, and multi-family uses with 0.86 acre designated open space.

All of Grant Park is zoned M, Manufacturing, C-2, Commercial, C-4, Commercial, and CPD Commercial Planned Development District. Zoning for Grant Park was established by variance to the applicable zoning district to permit the various forms of housing. The following are the applicable variance ordinances in effect today: Ordinance 0347-2010 (CV09 – 036), Ordinance 1047-2019, (CV15 – 050A), Ordinance 1780-2017 (CV17 – 042), Ordinance 0578-2020, CV19 – 123.

Rezoning application Z21-018 is pending to rezone 14 development areas, identified as Parcel 1 – 14, inclusive, to applicable zoning districts reflecting the existing uses, except Parcel 7, which is being added at this time to Grant Park. See Z21-018/CV21-026, 1408 N Grant Avenue, Zoning District Summary Exhibit for a summary of Parcels 1 – 14 area, height district and pending zoning district.

This Council Variance application is submitted to request applicable zoning variances to conform existing uses and the proposed use (multi-family) to the zoning districts specified in pending rezoning application Z21-018. Parcels 1 – 6, inclusive, and Parcels 8 – 14, inclusive, were developed in non-residential districts by variance and were not subject to the University Planning Overlay (UPO), now University District Zoning Overlay (UDZO)(2017). To the extent applicable, structures on Parcels 1 – 6, inclusive, and Parcels 8 – 14, inclusive, shall be treated as non-conforming structures if not in compliance with UDZO. Development on Parcel 7 is proposed new construction and is subject to UDZO. Applicable UDZO variances are cited for Parcel 7.

Applicant has a hardship and practical difficulty with compliance with the specified zoning code sections due to the need to conform existing development to new zoning districts reflecting the developed use and proposed use (Parcel 7 only) and the prevailing character of urban neighborhoods with smaller parcel sizes and reduced setbacks than otherwise permitted by the Zoning Code. The proposed standards variances are common with urban development.

Applicant requests the following variances:
