CV05-020 & CV05-021

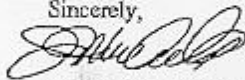

Dear Thor,

Thank you and your representative for presenting your plans to the Commission regarding Evergreen and Green Lawn. The projects are located in the American Addition (Amer Crest) and Oriole Heights. At our meeting earlier this month the Commissioners accepted and passed motion to support the development of the two properties thus allowing further improvements to occur on those sites.

Amer Crest and Oriole Heights representatives indicated that the community supports the efforts of Evergreen, and is pleased with the progress made thus far. The Commission verified that as long as the plans presented remain the same there would be no opposition by the residents polled in and around the sites. Additionally, the Commission accepted and passed a resolution to support the proposed projects presented on May 5, 2005.

We appreciate your continued support of the North Central Communities.

Sincerely,

Jimmie Moreland III, Chairman
North Central Area Commission

Douglas McDonald, Zoning Chair
North Central Area Commission
