# Working with you...

**A**rchitectural Alliance is specially qualified to offer you the skills and expertise to develop a powerful response to the pertinent issues of site and building design which will prove vital to optimizing the effect and significance of your project.

Both Mike Fitzpatrick and John Oney grew up in construction families and have maintained close ties to general and subcontractors. This gives us the ability to inject practicality into design and reality into budget objectives.

We value long and rewarding relationships with our clients. Architectural Alliance will remain attentive and focused on your needs throughout the design and construction process.

We are experienced working with committees, analyzing input from various sources, and helping organizations to refine their program priorities and design objectives. We're available to assist non-profit organizations in fundraising efforts to make their project a reality.

**Plays well with others**

**ARCHITECTS**

# About Us...

For 25 years, Architectural Alliance has been helping clients define and achieve their goals in the form of well-designed buildings which meet specific needs and budgets.

Our company serves diversified clients including industrial, automotive, educational, research, distribution, athletic, hospitality, health care, business, retail, and residential markets. We have completed buildings throughout the United States.

At Architectural Alliance, we specialize in careful analysis, working with our clients to target a building program which will best serve their purposes, and investigating design solutions which provide the most efficient means of reaching aesthetic, functional, and financial goals.

Our staff of 19 includes four registered architects with 65 years of collective experience, 9 associate architects, and an interior design specialist. We have 16 full CADD stations along with plotting and printing operations within our office.
