To Whom It May Concern:

This letter is to inform you that Cribs for Kids, Inc. is the sole source for the following items:

- a. Cribs for Kids Pack n Play – Graco 9H00FOF
- b. Cribs for Kids Pack n Play sheet embossed with our infant safe sleep message.

We require our Cribs for Kids partners, who are supplying safe sleeping environments to their clients, to use these items exclusively for the following reasons:

- a. Testing was done on all available playyards at the onset of our program and it was determined through hands-on tests and also a review of the Consumer Products' Safety Commission reports that the Graco Pack n Play was by far the safest and most reliable. Because Graco actually developed the 'playyard' concept in 1987, their units contain all of the patented safety mechanisms that continue to make them the leader in the industry.
- b. The Cribs for Kids Unite #9H00FOF cannot be returned to a retail outlet by the client for cash or store credit, assuring that the donation will be used for its intended purpose.
- c. Because Graco Children's Products controls almost 85% of the baby market in the country, they are able to stand behind their products in the event that there is a problem involving the manufacturing of the unit. To date we have distributed over 325,000 units and can report that we have not had a problem with any 9H00FOF units.
- d. Graco Children's Products worked with us to assure that the 9H00FOF unit met all of our safety requirements. For instance, the toy bar that is shown on most of their retail units was eliminated because of a safety warning for babies over 5 months of age.
- e. All of the 9H00FOF units are made with materials that are gender neutral.
- f. The Cribs for Kids program uses Graco products for a reason, it is a trusted brand for safety by parents and those entrusted to help keep babies safe. Graco has a knowledgeable compliance team and testing is completed on all products to make sure they meet or exceed all applicable standards.

If you have any other questions regarding the products used by Cribs for Kids, Inc., please do not hesitate to contact me.

Sincerely,

Judith A. Bannon,
Executive Director/ Founder
