

September 1, 2012

To Whom It May Concern:

This letter is to notify you that Innovative Energy Solutions (IES) is our only authorized Partner for the Columbus, Cincinnati, and Dayton Ohio markets. IES is also our provider of services in Northern Kentucky and Southeastern Indiana. The TAC Products they are responsible for are as follows:

I/A Series & Niagara Platform (formally Invensys)

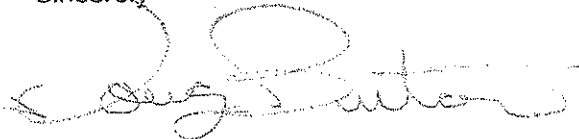

Network 8000 (formally Siebe/Barber Colman)

DMS/Micro-Smart (formally Robertshaw)

Innovative Energy Solutions is the only Certified Partner to install and program these systems. They have been certified and trained on these product lines. In addition, IES is also the only factory authorized service provider TAC recommends for these product lines in the above stated territories.

Please feel free to give me a call at (502) 477-7999, should you have any question. I encourage you to contact Innovative Energy Solutions (513) 874-6733 in the future for all your system expansions and service needs for the above product lines. We at TAC thank you for your business.

Sincerely

Doug Burton

Central Regional Sales Manager
