Hi Brett,

Please see below.

Let me know if you need anything else.

Best,
Diana

Yes, can you update the end date? The 1 was cut off.

Thanks!
Diana

Hi Dan,

I hope you are doing well and that we can reconnect soon and snych up. City of Columbus again needs confirmation that DAS intends to renew MSCA00016.

Can you assist?

Thanks!

Diana

I realized that it was an email and not a document as I had thought.
An email as like the below should be sufficient.

Brett

Gwen,

It appears that Adobe was telling us the State did extend their Adobe STS contract and was given me an extension date of 7/31/2020.

Now that I've finally hear back from the state, we are only getting confirmation that they are anticipating the renewal of the contract.

Does the email below provide sufficient information you requested to allow us to proceed with renewing our Adobe licenses?

Thanks,

Brett

I'll have to run with this and see what our Fiscal Office responds with.

I was under the impression this was completed already so I'm hoping this does not put us in a bind.

Thanks,

Brett

Brett, I've added a few more representatives from the State of Ohio. I'm sure one of them will be able to help us with information regarding the Adobe ETLA agreement. The current contract # is MCSA0016.

Thanks,

Dan,

I've been in communication with Diana Harris from Adobe.

In order for the City of Columbus to proceed with utilizing the Ohio State Term contract for Adobe, we need verification that the contract has been extended to the end of July, 2020 as she's stated.

She referred me to you specifically to obtain this information. I'm not finding anything online so I do apologize that I need to take your time to inquire if you would be willing to provide any type of document or letter that we must for our own legislation and licensing purposes.

In addition, can you also provide the current price list for the Adobe products as a result of this contract extension?

Regards,

Brett Slater
