## Site Information

- The 0.50± acre site is an infill-type annexation.
- The current use is a commercial warehouse, which will not change following annexation.
- The site is located within the boundaries of the Port Columbus Joint Economic Development Strategy and the East Columbus Neighborhood Plan, which both recommend Light Industrial for the site.
- The site is not within the boundaries of an Area Commission.
- The site does not require a boundary conformance.
- The adjacent parcel to the west is being annexed to the City in case #AN20-009.

## Key Issues

- Annexation is sought to obtain city services.
- Planning staff have conducted a preliminary review and are supportive of the proposed use. It is consistent with the plan recommendation and has the opportunity to generate revenue for the City.
- Annexation does not guarantee a zoning application will be approved. Zoning requests require a separate application process through the Department of Building and Zoning Services.

## Legislative Information

- The applicant must provide a statement of municipal services to the county for their consideration within 20 days.
- The annexation is tentatively scheduled for consideration at a Franklin County Commissioner hearing.
- The Ohio Revised Code stipulates that once an annexation has been approved by the county, it must be accepted by the receiving municipality in order for the annexation process to be completed. The acceptance process involves a second city ordinance that may be acted upon a minimum of 60 days from the date the City Clerk receives record of the commissioner's action and a maximum of 120 days of City Council's first consideration of the second city ordinance.
