

Information to be included in all Legislation authorizing entering into a Contract:

1. **The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>City/State</u>	<u>Status</u>
CDM Smith, Inc.	04-2473650 - 5/23/14	Columbus, OH	MAJ
Arcadis U.S., Inc.	57-0373224 – 7/10/15	Columbus, OH	MAJ
Brown & Caldwell Ohio	94-1446346 – 3/18/16	Columbus, OH	MAJ

2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Requests for Proposal (RFP's) were received December 12, 2013.

3. **List the ranking and order of all bidders.**

1. CDM Smith, Inc.
2. Arcadis U.S., Inc.
3. Brown & Caldwell Ohio

4. **Complete address, contact name and phone number for the successful bidder only.**

CDM Smith, Inc.
8800 Lyra Drive, Suite 500
Columbus, Ohio 43240
contact: Thomas E. Jedlinsky, P.E., P.S., Vice-President, Office Phone = (614) 847-8340
Cell Phone = (614) 325-9489, Office Fax = (614) 847-1699

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

This project will provide master planning for watershed management and source water protection operations. It will provide strategic direction and recommend best practices and actions to safeguard the environmental health and viability of Columbus's raw water supplies and associated watersheds.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The project design is scheduled for eighteen months after the notice to proceed. The scope requires the consultant to deliver a number of technical memos during the eighteen months.

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

Activities and land-use within the watersheds directly affect the quality of the raw drinking water source. This project will evaluate current and future pollutants of concern and recommend best practices for the long-term management of quality source water supplies. It will also include evaluation of specific pollutant impacts within defined watershed areas, consider flow, stormwater and land use characteristics pertaining to contaminant sources, and recommend strategy for communication and partnership to sustain quality reservoirs, healthy riparian corridors, and effective land-management for water resource protection.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

\$904,750.00

No modifications are anticipated at this time.
