C +1 614 747 2549

Bharat is a registered architect in the State of Ohio with over 27 years of work experience. His range of expertise runs from mixed-use developments to multi-million dollar commercial and public buildings. Bharat's skills allow him to successfully navigate a project from the early conceptual stages through to the end of construction.

In particular, he has developed the skill of bridging the often divergent realms of design concepts and their translation into construction documents. Bharat can work with equal ease amongst designers and detailers. His proficiency in software follows the same strain from graphics and visualization to construction documents and administration.

Bachelor of Architecture + First Class with Honors . University of Mumbai, Mumbai, India 1996
Master of Architecture + AIA Certificate of Merit . The Ohio State University, Columbus, Ohio 2001
