RE: CryWolf - Medallion Permit Software

Dear Ms. Patts:

This letter is in response to the question concerning available supply sources for the CryWolf Medallion Permit Tracking and Billing software (Medallion). The Medallion software module extends CryWolf Alarm Permit and Billing software functionality to other types of permits. Information on the extended functions may be reviewed on the CryWolf website – http://www.crywolf.us/Content.aspx?id=138. Medallion, like CryWolf, is the registered intellectual property of Public Safety Corporation (PSC). PSC is also the sole source for CryWolf and Medallion software licenses, and implementation and support services.

We appreciate the City of Columbus' continued support of CryWolf and look forward to upgrading the CryWolf Alarm Permit software for use in also granting, tracking and billing other City permits.

If you have any questions, please call me at 240-607-1401.

Sincerely,

Les Greenberg
Chief Executive Officer
