**Re: Sole Source OpenVision™ LT-S Systems**

Envision CmosXray LLC, located in Anchorage, Alaska, is the designer, manufacturer, and sole source of the OpenVision LT-S system (GSA Contract GS-07F-0280T, SIN 426-4K). The system is designed exclusively for the security markets and sold direct to local, state and federal agencies for use in X-raying suspicious packages and other investigations. The system is listed under AEL/SEL NUMBER: 02EX-01-XRAP - X-Ray Unit, Portable or Transportable.

Envision Product Design LLC has invested over 13 years in the development of the "OpenVision" technology that is our exclusive proprietary design for displaying digital real-time live X-ray video. Our advances are unique in the world for providing a system that is immediately on and able to display video images to the operator. Our design sold exclusively to security markets is a unique configuration, developed for security customers for compact storage and fast deployment by an operator or robot system.
