

Ord No.: 0607 - 2009

Information to be included in all Legislation authorizing entering into a Contract:

1. **The names, contract compliance no. & expiration date, location by City/State and status of all companies (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR) submitting a competitive bid or submitting an RFP or RFSQ.**

The incineration scrubber system at the Jackson Pike Wastewater Treatment plant is Sole Source and only one business entity is capable of supplying the required equipment. The procurement is being conducted in accordance with Columbus City Code 329.07.

<u>Name</u>	<u>C.C. No.</u>	<u>Exp. Date</u>	<u>City/State</u>	<u>Status</u>
EnviroCare International, Inc.	680263091	4/16/11	American Canyon, CA	MAJ

2. **What type of bidding process was used (ITB, RFP, RFSQ, Competitive Bid).**

Sole Source, Columbus City Code 329.07

3. **List the ranking and order of all bidders.**

EnviroCare International, Inc.

4. **Complete address, contact name and phone number for the successful bidder only.**

EnviroCare International, Inc., 507 Green Island Road, American Canyon, CA 94503
Contact: John M. Tate, (707) 638-6800

5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.**

This is a contract for the Jackson Pike Wastewater Treatment Plant (JPWWTP) Incinerator Hydraulic Scrubber Conversion project for the Division of Sewerage and Drainage. The biosolids incineration process is an integral part of the wastewater treatment process at the JPWWTP. The existing incinerator scrubber system was installed in 2001. The project will refit the existing scrubber system from an air-atomizing compressed air system to a completely hydraulic-atomizing system. This new system will provide enhanced scrubber performance, substantial energy savings and maintenance savings by removing the energy-consumptive and problematic air compressors from the system. The new higher efficiency particulate scrubber system will reduce emissions and assure continued compliance with the Title V air permit.

The scrubber equipment upgrade is being performed by the equipment's manufacturer, EnviroCare International, Inc. and they are the sole source of the equipment. This contract consists of furnishing the new hydraulic-atomizing scrubber system equipment, start-up services, equipment performance optimization and training of the plant staff. The Jackson Pike WWTP staff will install the new equipment.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The contract work for this contract is required to be completed within 365 days from the date that a Notice To Proceed (NTP) is given by the City.

7. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**

The negotiated amount and proposed award amount for this contract is \$221,820.00, including a 20% contingency. No contract modifications are anticipated at this time; however, construction exigency might later compel modification of this contract, if unforeseen difficulties are encountered.

Cost summary:

Original Contract	\$221,820.00
Future Anticipated Needs	\$ 0.00
CONTRACT TOTAL	\$221,820.00

8. **Sub-Consultants identified to work on this contract, their contract compliance no. & expiration date, and their status (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR):**

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>Status</u>
None – Sole Source.		

9. **Scope of work for each subcontractor and their estimate of dollar value to be paid.**

None – Sole Source.

Note: The Contract should be considered to include any and all work that is anticipated to be awarded to the company awarded the original contract throughout the contract/project timeline. This includes the original contract and any and all future anticipated modifications to the contract to complete the contract/project.
