5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

The purpose of this project is to construct necessary improvements to the water distribution system in the Scottwood Road Area. The improvements identified in the scope of work will replace or rehabilitate water lines that have high break histories and require frequent maintenance. This project includes replacing or rehabilitating approximately 15,325 linear feet of 6-inch and 8-inch and water lines within the project area.

The work is located in planning area 20 (Eastmoor / Walnut Ridge). The streets/roads include Scottwood Road, S. James Road, Garywood Ave., Kentwood Pl., Clairpoint Ct., Crossing Ct., Niagara Ct. West, Niagara Ct. East, Liv Moor Dr., Liv Moor Ct., Kirkbridge Ct., Defford Ct., Binbrook Ct., Hemswell Ct., Penfield Ct. South, Towers Ct., Towers Ct. North and S. Waverly St.. These streets are located in the residential area southwest of Livingston Ave and James Road.

6. **A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.**

The duration of the design phase for this project is 12 months. Part of the Engineer's contract is to provide Record Drawings after the construction of this project, therefore, the contract completion date cannot be determined at this time

7. **A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.**

The goal of this project is to replace or rehabilitate the existing 6-inch and 8-inch water lines that have a high break frequency. Replacement of these water lines will decrease burden on water maintenance operations and improve water service. The new lines constructed under this project should eliminate the pattern of frequent water line breaks and reduce water loss.

The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

8. **An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.**
