5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

The general purpose of these agreements is to provide general engineering services to the Division of Power and Water, Water Distribution Engineering, on an as-needed basis. Work items may consist of field investigations, surveying, and other professional design services as necessary for the completion of a design report, plans and specifications, and engineering services.

6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

The initial agreements are for a period of one year, and are renewable for two additional years.

7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

The agreements are for general engineering services. The economic impact is \$500,000 of surveying and engineering services from the capital budget. This will allow the Division to perform miscellaneous engineering tasks on an as-needed basis. Outreach and environmental impact is unknown since the exact type and location of work is unknown at this time.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Original Agreement: \$500,000.00 (or \$250,000 for each firm) - 2013
Future Modification #1: \$500,000.00 (or \$250,000 for each firm) - 2014
Future Modification #2: \$500,000.00 (or \$250,000 for each firm) - 2015
Total: \$1,500,000.00 (or \$750,000 for each firm)

9. Sub-Consultants identified to work on this contract, their contract compliance no. & expiration date, and their status (NPO, MAJ, MBE, FBE, HL1, AS1, or MBR):

<u>Name</u>	<u>C.C. No./Exp. Date</u>	<u>Status</u>
Advanced Engineering Consultants	31-1612308 / ?	FBE
Kabil Associates, Inc.	31-1401720 / ?	ASN
Resource International, Inc.	31-0669793 / ?	FBE

10. Scope of work for each subcontractor and their estimate of dollar value to be paid.

Advanced Engineering Consultants will provide mechanical engineering services. Kabil Associates will provide structural and architectural services. Resource International will provide geotechnical investigations and utility locating services.

The estimated fee each subcontractor is unknown since the services will be performed on an as-needed basis.

Note: The Contract should be considered to include any and all work that is anticipated to be awarded to the company awarded the original contract throughout the contract/project timeline. This includes the original contract and any and all future anticipated modifications to the contract to complete the contract/project.
