### Commissioner Profile

**Susan, please place the commissioner profile you provided for the elections here!**

Previously, my family and I lived in a suburban Dayton neighborhood which was very spread-out, requiring a car to get to nearly everything. When we moved to Columbus nearly three years ago, we chose this more urban setting for its vitality, its diversity, and its proximity to work, shopping, and to neighbors. We are continually amazed at the many resources we have so close at hand.

Ours is a livable, walkable community that should be preserved. This is an area of interest to me, particularly as I am a registered architect and a LEED Accredited Professional.

Communities that show an interest in caring for the environment and promoting "sustainable" lifestyles – "green communities" – are important to the health and growth of any city.

Developing green open space, community and private gardens, and maintaining properties not only benefits the area but is also in keeping with the Ohio State University's commitment to sustainability.

Other issues and areas of concern to me are: controlling traffic, reviewing neighborhood permit parking policies, and continuing a cooperative relationship with police to promote neighborhood safety.
