Subject: Fleet Expansion Approval

Director:

As per the policy of Fleet Management on vehicle purchases that are not replacing another (1 for 1) the Department of Public Utilities is asking for approval to purchase a Single Axle Truck Mounted Hydro Excavator with CNG for the Division of Water. We have worked with the Purchasing Office and they are in agreement with our method of bidding and award.

Director Davies is ok with this purchase.

Thank you for your consideration. If you have any questions please let me know.

Jon Lee
