*after internal adjustments were made

4. Complete address, contact name and phone number for the successful bidder only.

K & W Roofing, Inc.
8356 National Road
Pataskala, Ohio
Bill Kilcoyne (740) 927-3122

5. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

Furnishing of all materials, equipment and labor necessary to provide for the installation of urethane coating roofing restoration system over a properly prepared mineralized built-up roof system; the restoration of a gravel surface built-up roofing system; miscellaneous metal flashing; the removal of communications tower and install antenna tower at the Hap Cremean Water Plant; and such other work as may be necessary to complete the contract in accordance with the plans and specifications.

6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

Work under this contract shall be completed within 75 calendar days after the NTP is issued.

7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

This project is necessary to meet maintenance needs at the Hap Cremean Water Plant (HCWP). The HCWP is an essential and integral component in the Columbus area water supply and treatment infrastructure. Adequate safe supply of water is essential to economic growth and development.

Public informational meetings are not anticipated for this project, all proposed work is within the boundaries of the water treatment facility.

The roof restoration product being utilized is a highly reflective waterproofing membrane, “White-Knight Plus”. The high solar reflectance of the coating will reduce energy usage compared to the existing black roof system. Restoring the existing roofing system with new membrane coatings will extend the life of the current roof by 15 years delaying the need to re-roof the facilities. The roofing surface is specified to be supplied as a white, elastomeric, urethane coating with an Energy Star approval rating.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

\$502,430.50– construction contract with K & W Roofing, Inc.
