Re: Sole Justification

Meggitt Equipment

To Whom it May Concern:

Thank you for your interest in Meggitt Training Systems, Inc. (MTSI) and our components and repair services. The target system you have in your range has been developed and modified over the years by MTSI. All the modifications and upgrades have been made with the existing systems in mind. Therefore, MTSI is the sole source for any repair or maintenance to any of the equipment. Caswell/Meggitt was the original supplier of the equipment in the range and we are the only source for repair to minimize expenditure while bringing the system in the range up to current standards. All of the components we provide for our equipment have been fabricated for, and rigorously tested with, the equipment you have on your ranges to ensure our high standards of performance. We cannot guarantee that any components which we do not provide will allow your equipment to function properly, nor can we be liable for any damages to any MTSI equipment that was outfitted with other manufacturers' equipment.

MTSI has been the sole source supplier to hundreds of agencies including the United States Government, large municipalities and the smallest villages. MTSI is the world leader in firearms training equipment and has complete sales, service, installation, and engineering staffs to make certain that each project is properly handled. MTSI has over 80 years of experience in designing and manufacturing all types of firearms training equipment and has successfully fabricated and installed literally thousands of shooting ranges world-wide, consisting of military, law-enforcement, commercial, and private ranges. Our emphasis on safety is always, and will remain, foremost. After reviewing this information, should you have any questions or be in need of any additional assistance, please do not hesitate to contact me. We at MTSI appreciate your interest in our products and look forward to working with you.

Sincerely,

L.E. Live Fire Service Coordinator
