Subject: RECOMMENDATION: CTSS Ph B Consultant

To: Alex Cofield, Contract Manager/Management Analyst II
Mark Kelsey, Director, Department of Public Service

From: Mark Kelsey, Director, Department of Public Service
Alex Cofield, Contract Manager/Management Analyst II

Date: November 3, 2009 *October 29, 2009*

Subject: RFP – Columbus Traffic Signal System Phase B (CTSS Ph. B)
Budget – \$7,800,000
Funding Source – Federal CMAQ funds

Cc: Evaluation Committee

The Department of Public Service recently solicited Requests for Proposals for the CTSS Ph. B project.

The Department requested engineering design and system integration support during the migration of the existing Columbus Traffic Signal System (CTSS) to an open architecture that can serve central Ohio stakeholders with system connectivity and interoperability.

The purpose of the Columbus Traffic Signal System Phase B project is to transition the existing CTSS to a new software and hardware package maximizing the existing infrastructure and the use of recent investments of the CTSS Phase A project based on the *November 2005 Columbus Traffic Signal System Assessment and Strategic Plan*.

The project was formally advertised on ODOT's web site beginning September 11, 2009, and the City's Vendor Services web site beginning September 9, 2009, with proposals due October 13, 2009. The City received three (3) responses. All proposals were deemed minimally compliant and were fully evaluated when the Evaluation Committee met on October 29, 2009. The responding firms were:
