RE: Sole Source for PremierOne Records™ Infrastructure Maintenance

Dear Mr. VonVille:

Motorola Solutions, Inc. is a leader in Public Safety communications and interoperability systems. Motorola's PremierOne Records infrastructure technology provides seamless, high-quality, records management services.

The above referenced PremierOne Records solution contains proprietary software developed and owned by Motorola. To provide complete PremierOne Essential Support Services for this solution, another vendor would need access to Motorola's proprietary software source code. No other vendor has access to Motorola source code and Motorola has not authorized any dealer or other party to obtain such access.

Thank you for your continued support for Motorola. Let us know if we can provide any additional information.

Regards,
