3. A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

The work consists of furnishing all labor and materials for repair and rehabilitation of 1,785 lineal feet of 108 through 117-inch diameter combined sewer utilizing shotcrete and rehabilitation of 1,634 lineal feet of 27 through 48-inch diameter combined sewer utilizing Cured-in-Place Pipe (CIPP). The work includes cleaning, video inspection, lateral sewer reestablishment, bypass pumping, maintenance of traffic, open cut point repairs, and other associated work. This work also includes rehabilitation of manholes, including the replacement of the frames and covers, cementitious lining, and the installation of a flexible manhole sealant coating and other such work as may be necessary to complete the contract in accordance with the plans (CC-14757) and specifications. All work shall be completed within 540 days from date of the Notice to Proceed.

4. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

The project is to be completed in one phase. It is anticipated that construction will commence on or before April 2009 and be completed on or before October 2011.

5. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

The award cost of \$ 1,987,902.90 includes a contingency cost of \$331,317.15 which should be sufficient to cover any unknown costs that may occur during construction.
