

City of Columbus
3675 Parsons Ave.
Columbus, OH 43207

Tuesday, February 10th, 2026

Atlantic Emergency Solutions, the OH dealer for Horton Emergency Vehicles, is pleased to present you with a price regarding your request for (4) 2027 Ford F550 GAS 4x2 Horton 623 Type I Ambulance's.

The price to customize and manufacture the truck matching your specifications is as follows:

Total cost for (4) unit(s): \$1,649,976.00 --- \$412,494.00 price per unit

This proposal is valid for 90 days.

Delivery ETA: 30 Months from receipt of PO

The price includes the following:

Factory Pickup and Transportation

Horton will drive new units from Horton to Reynoldsburg Service facility after final inspection.

Dealer Pre-Delivery Inspection

Reynoldsburg service center will perform a pre-delivery inspection after delivery from the Horton factory.

Delivery

City of Columbus will take delivery of units from Reynoldsburg Service Center after pre-delivery inspection is completed.

Fuel and Tags

Atlantic will ensure the unit has a full tank of fuel and a temporary tag.

Pre-Construction Meeting

A pre-construction meeting will take place in Columbus, OH at the customer's convenience.

Inspection Trip(s) Included

(1) Final inspection trip to Grove City, OH for (8) department personnel including (1) representative from fleet.

Equipment Included in Price

- Panasonic Rugged CF-33 Tablet 12", Havis mounting hardware, and wiring components
- Knox Key Secure 6
- Motorola Dual Head APX 6500 w/ enhanced 7/800MHz

- EMS MEDVAULT
- EMS Billing Device – Panasonic G2, Havis mounting hardware, and wiring components

There are no shortcuts or half measures here. For those who expect and require only the best, Horton redefines and reimagines safety, design, and style with the ultimate customized ambulance. Our one-of-a-kind ambulances are built to exceed standard safety requirements, with a higher level of structural strength, for the protection and durability your department demands. Horton and its dedicated dealer network that inspire confidence and make your decision easy. Choosing a Horton ambulance is choosing to invest in your crew, your department, your mission, and to do it better every day.

At Atlantic Emergency Solutions we have built an internal and external infrastructure capable of meeting the diverse needs of our customers in Ohio. With five (5) Service Centers, two (2) Collision and Paint Centers, and over one hundred (100) proud OH based employees throughout the state our service is unmatched. It is our mission to not only make the duration of your emergency vehicle a pleasant experience, but to assist in any way possible.

Atlantic Emergency Solutions has invested heavily in providing warranty, routine, and emergency service to its customers in OH. Atlantic Emergency Solutions views the acquisition of custom ambulances by one of our customers not merely a purchase but an investment. This investment needs to be protected with best in local service!

Should you have any additional questions regarding any information in this proposal, please do not hesitate to call or email at the below contact information.

I look forward to the opportunity of continuing the working relationship with the members of the Columbus Division of Fire and all those involved in the fire and emergency field.

Thank you!

Casey A. Walker
Vice President of Ambulance Sales

Spec Designer:

City of Columbus FY 25/26 Quote

		NOTE - WHEN IN EMERGENCY MODE, CUTOFF THE ENTIRE SYNC4 SCREEN IN ADDITION TO THE RADIO CUTOFF, INCLUDING THE OEM USB PORTS. THE SCREEN TAKES APPROX 7 SECONDS TO TURN OFF AFTER THE EMERGENCY MASTER HAS BEEN ACTIVATED AND APPROX 7 SECONDS TO TURN BACK ON AFTER EMERGENCY MASTER HAS BEEN DEACTIVATED.
1000-0071	1	CHASSIS ORDERED WITH ALUMINUM WHEELS The specified chassis is to be ordered to include OEM aluminum wheels.
1000-0063	1	CRAWL THROUGH FOR FORD Type 1 Ford chassis to be modified for crawl through access to the patient area.
SR00328387	1	Cab is to be cut for standard crawl through and walled off for customer equipment on the cab side. See Front Wall section for a description of the door. The body is to be built as a standard pass-through.
1000-0083	1	STANDARD CAB HEIGHT The specified chassis will have the standard cab height.
1000-0087	1	REAR DOCK BUMPERS Install two (2) black rubber standard sized dock bumpers. Locate one on either side of the rear step on the end caps.
1000-0090	1	REINFORCE REAR BUMPER END CAPS Reinforce end caps of rear bumper for greater impact resistance.
1000-0220	1	RUNNING BOARDS: STAR PUNCHED, F SERIES Install heavy duty aluminum diamond plate running boards and splash shields. Running boards are to be star punched for enhanced drain and foot grip.
SR00328485	1	Install a 'Columbus Style' energy absorbing impact bumper.
1000-0149	1	LIQUID SPRING SUSPENSION, F 550 Install a Liquid Spring hydraulic rear suspension. Wire system to dump when the left rear entry door is opened. Install manual controls in the cab near the driver.
SR00328422	1	LIQUID SPRINGS CONTROLLER, Locate controller behind dash, drivers side, inside the plastic end cap.
3000-2195	1	AUXILIARY ENGINE-DRIVEN A/C COMPRESSOR, F SERIES Install an Auxiliary engine-driven A/C compressor on the chassis and tie to the rear A/C system.
3000-0407	1	RECEIVER/DRYER KIT, FORD F-SERIES CHASSIS Install standard receiver/dryer kit w/pressure switch in the air conditioning system.
BODY		
SR00328450	1	MUD FLAP, LARGE Install one large rubber mud flap across the entire rear of mod, just aft of the rear bumper. The flap to have at least (8) mounting points to the body. Flap to be cut approx. 2" from the ground.
2000-0179	1	AMBULANCE BODY Conversion model is to be a 623F-I using a Ford F Series chassis. Body length is 173".
SR00328381	1	The crash barrier compartment is to be fabricated from flat D/A finished aluminum ILOS.

Spec Writer: **John Cox**

Spec Designer:

City of Columbus FY 25/26 Quote

		<p>Sweep-out floor design.</p> <p>The compartment is to be 62"H x 29.79"W x 24"D</p> <p>The compartment is to include a single door with dual Nader pins.</p> <p>* Install a pocket on the inner door panel to prevent contact with the O2 bottle nozzles. Install a rubber strip ILO Safety Walk on the crash barrier door.</p> <p>Raise lower nader pin for the pocket height allowance on door.</p> <p>Notch the compartment to allow for a 24" D upper portion.</p> <p>Cut the interior opening as close to the interior floor level as possible.</p> <p>Install (2) shelves of .25" flat D/A finished aluminum. Reinforce front and back underside of shelves for durability. Locate one shelf (fixed) at interior floor level and trim with Grip-Lock to seal against the compartment walls. Install 12" shelf tracks starting at 4" below the ceiling of the compartment and install an adjustable shelf in this section.</p>
SR00328419	1	<p>Increase the height of the rear doors 2" to duplicate previous.</p> <p>Extend the curbside wheelhouse to the crash barrier.</p> <p>Install a .25" reinforcement plate underbody for mounting of bariatric winch next to the attendant's seat.</p> <p>Reinforce wall and ceiling at the head of bench per drawing to support MedVault unit.</p> <p>The CPR seat storage is to be sealed from exterior to prevent dirt and moisture intrusion.</p>
SR00328406	1	<p>STORAGE FOR NOZZLES, CRASH BARRIER</p> <p>Fabricate and install a tool storage container with (3) divided 5"W x 5"W x 15"D storage sections. Install horizontally on the crash barrier floor, angled toward rear so items don't fall out when door is opened, per drawing. Openings are to be installed toward the exterior. Install on a hat section to make the openings flush with the bottom of the door extrusion.</p> <p>Apply gray rubber matting inside the slots.</p> <p>Install a 3" rubber body style strip horizontally on the door panel pocket to prevent contact between the door panel and the tools.</p> <p>Secure nozzles with a fabricated strap and footman loops.</p>
2000-0014	1	<p>HEADROOM, 74"</p> <p>The headroom is to be 74".</p>
2000-0625	1	<p>ALUM. DIAMONDPLATE AT SIDE STEPWELL</p> <p>Fabricate the stepping surface inside the side access door using polished aluminum diamond treadplate.</p>

SR00328353	1	STEPWELL NOTE, Polish and clean all welds beneath the stepwell.
2000-0245	1	DOUBLE STEP CURBSIDE ENTRY, 6" DROP SKIRT Fabricate curbside of body with 6" drop skirt. To include two step side entry.
2000-0246	1	STREETSIDE 6" DROP SKIRT Fabricate streetside of body with 6" drop skirt.
2000-0250	1	SOUND PROOFING/ACOUSTIC ENHANCEMENT PACKAGE Install standard sound control package.
2000-1050	1	ROOF POCKET, AUXILIARY CONDENSER Install a roof pocket for a CoolTech I unit.
2000-0258	1	WINDOWS, FIXED, REAR ENTRY DOORS Install clear solid fixed windows in the rear module access doors.
SR00328386	1	REAR DOOR WINDOW NOTES, Install limo tint to rear door windows. The rear windows are to include printed chevrons on Gerber Vision to match the rear chevrons. Material is to cover the entire window and be trimmed as close to the window frame as possible.
2000-0260	1	WINDOW, SLIDING FOR SIDE ENTRY DOOR Install a clear sliding window in the side access door.
SR00328460	1	SIDE ENTRY DOOR WINDOW NOTE, Install limo tint to side entry door window. Entire window to be covered.
2000-0265	2	EMERGENCY RELEASE, REAR DOORS Install standard emergency release knobs on top and bottom of the rear module entrance doors.
2000-0704	1	EMERGENCY RELEASE, SIDE ACCESS DOOR Install emergency release knobs on top and bottom of the side module entrance door.
2000-0010	1	DOOR HANDLES Install Tri-Mark free floating style door handles with pre-stretched stainless steel cables. Include three piece interior door panels on all access doors.
2000-0811	1	VI-TECH MOUNTING, F SERIES Install standard Vi-Tech body mounts.
2000-0270	1	MIRROR STAINLESS STEEL SPLASH SHIELDS Install #8 mirror stainless splash shields on the lower front face of the body just behind the cab access doors. These splash shields are to be the same height as the diamond plate front corner guards.
2000-0509	1	FENDERS, RUBBER Install rubber extruded fenders around the rear wheel well openings.
2000-0280	1	PVC RUB RAILS SPACED 1" FROM BODY PVC style lower body rub rails are to be installed along the bottom of the body on each side fore and aft of the rear wheels. The rub rails will be spaced approximately 1" from the body using rubber bushing and will be through bolted into the lower body tubes and have a locking nut on the back side.
SR00328360	1	Install ABS style rub rails spaced away from the body with rubber spacers through-bolted to the body.

2000-0652	1	STANDARD CORNER GUARDS Install standard height polished diamondplate corner guards.
2000-0281	1	REAR DOOR HOLD OPENS, GRABBER Install chrome Cast Products "Grabber" style rear door hold opens. (NOTE: HOLDOPENS MUST BE RELOCATED IF TELESCOPIC LIGHTS ARE ORDERED)
2000-0583	1	ENTRY DOOR THRESHOLDS, LINE-X Apply black Line-X to the side and rear entry door thresholds. Delete the standard anti-slip tape.
2000-0623	1	FLAT ALUMINUM REAR RISER The rear riser is to be fabricated out of flat aluminum.
SR00328432	1	Do not punch rear riser for license plate. No plate will be used.
SR00328424	1	FUEL FILL PLATE, Install a stainless steel plate on the body face below the fuel fill housing. Plate to extend to compartment flange and up to the white stripe and stop. SEE DRAWING
2000-0598	20	DOOR REFLECTORS All patient compartment entry doors to include standard red reflectors.
SR00328425	1	Install standard reflectors in the lower outboard corner of all body entry doors IATS.
COMPARTMENTATION		
SR00328379	1	COMPARTMENT NOTE All exterior compartments are to be D/A finished flat aluminum ilos. All exterior compartment door panels are to be D/A finished flat aluminum ilos.
SR00328368	1	STREETSIDE FORWARD COMPARTMENTS, I4G The height of the streetside front compartment is to be the reduced. An electrical compartment is to be installed above the primary compartment. See drawings for compartment dimensions. Both compartments are to include standard LED strip lighting and single hinged doors. The upper compartment to house the I4G components ilo the standard electrical components.
2000-0401	1	SS FORWARD COMPT. FLAT ALUMINUM The streetside forward compartment is to be fabricated from flat aluminum.
2900-0219	1	FIXED VERTICAL DIVIDER, STREETSIDE FRONT As close to bottle as possible. Install a 16" deep fixed vertical divider in the streetside forward compartment. Locate as noted above.
SR00328463	1	Specified divider is to be D/A finished flat aluminum. Divider is to be 50"H x 11"D ilos
2000-0225	1	SWEEP OUT COMPARTMENT FLOOR, SS FRONT Streetside forward compartment floor is to be sweep-out style.
2900-1555	1	STREETSIDE INTERMEDIATE COMPARTMENT

Spec Writer: **John Cox**

Spec Designer:

City of Columbus FY 25/26 Quote

		The height of the streetside intermediate compartment is to be the full available height to the bottom of the interior countertop. See drawings for compartment dimensions. Compartment is to include standard LED strip lighting and double hinged doors.
SR00328446	1	HOPS to be rotated to left wall. Install all electrical components and radio equipment on ceiling (electrical rear and radio forward). The airhorn compressor installs rearward and bolts down through rubber bumpers. Cover compressor with cage.
2000-0403	1	SS INTRMDT COMPT. FLAT ALUMINUM The streetside intermediate compartment is to be fabricated from flat aluminum.
2900-0139	1	STREETSIDE INTERMEDIATE SHELVING TO BE FLAT ALUMINUM DA FINISHED Streetside intermediate compartment shelving is to be flat aluminum DA finished. Locate as noted.
2900-0144	2	ADJUSTABLE SHELF STREETSIDE INTERMEDIATE Per Drawing Install adjustable shelving in the streetside intermediate compartment. Locate as noted.
SR00328445	1	The shelf is to be D/A finished flat aluminum ILOS.
2900-0220	1	FIXED VERTICAL DIVIDER, STREETSIDE INTERMEDIATE Per Drawing Install a 16" deep fixed vertical divider in the streetside intermediate compartment. Locate as noted above.
2000-0587	1	CEILING MOUNTED ELECTRICAL EQUIPMENT Add-on electrical equipment is to be installed on the ceiling of the streetside intermediate compartment.
2900-0252	1	EXPANDED METAL CAGE, STREETSIDE INTERMEDIATE Install an expanded metal cage around the onboard electrical equipment per location noted above. Include access ports to equipment with grip lock around the edges of the openings.
SR00328370	1	Install a second expended metal cage behind the first one. Rearward cage is to house electrical components. Forward cage is to house radio equipment. Add access holes to each cage. MINIMIZE THE SIZE OF THE CAGES TO THE POINT WHERE THERE IS OPEN SPACE FORWARD OF THE CAGES. REDUCE HEIGHT AS MUCH AS POSSISBLE.
2000-0624	1	SWEEP OUT COMPARTMENT FLOOR SS INTERMEDIATE COMPT Streetside intermediate compartment floor is to be sweep-out style.
8000-0145	1	SS WHEELWELL COMPARTMENT, DELETE Vehicle is not equipped with a streetside wheelwell compartment.
2900-1560	1	STREETSIDE REAR COMPARTMENT The height of the streetside rear compartment is to be 3/4 of the available height of the body. See drawings for compartment dimensions. Compartment is to include standard LED strip lighting and double hinged doors.
SR00328404	1	Install (6) Performance Advantage Handlelock mounts #PAC1004-02 Locate Streetside rear compartment, (4) on left compartment wall and (2) on right compartment wall.
SR00328405	1	Install (2) coat hooks, (1) on each the left and right walls for bunker gear. Use old style pin and socket style hold open type hook.

		Install (2) coat hooks on the inner compartment door panels. Use 'J' hooks.
SR00328417	1	The streetside rear compartment is to include a single hinged door ilos.
SR00328474	1	Reduce the height of the streetside rear compartment 8".
2000-0405	1	SS REAR COMPT. FLAT ALUMINUM The streetside rear compartment is to be fabricated from flat aluminum.
2900-0216	1	TOOL MOUNTING PLATE; STREETSIDE REAR Install a .25" thick aluminum plate on the back wall of the streetside rear compartment. Plate is to have a D/A finish. Install (2) aluminum 'C' channels to the wall and secure the plate using the 'C' channels.
SR00328382	1	The specified tool board is to be installed on the back wall of the streetside rear using (3) standard C-Channels. Plate is to be half-height to match previous. Supply and install (2) Zico SC-50-H-6-SFPHS SCBA brackets with straps on the plate to duplicate previous units.
2000-0608	1	SWEEP OUT COMPARTMENT FLOOR SS REAR COMPT Streetside rear compartment floor is to be sweep-out style.
2900-1564	1	CURBSIDE REAR COMPARTMENT The height of the curbside rear compartment is to be the full available height of the body. See drawings for compartment dimensions. Compartment is to include standard LED strip lighting and a single hinged door.
SR00328427	1	Fabricate so that the curbside compartment rear door can be opened as far as possible.
2000-0409	1	CS REAR COMPT. FLAT ALUMINUM The curbside rear compartment is to be fabricated from flat aluminum.
2900-0153	1	CURBSIDE REAR COMPARTMENT SHELVING TO BE FLAT ALUMINUM WITH A DA FINISH Curbside rear compartment shelving is to be flat aluminum with a DA finish. Locate as noted.
SR00328401	1	Fabricate a fixed shelf with 1" flanges in D/A finished flat aluminum. Install between the specified divider and the right wall at 43" from the compartment floor. Install adjustable tracks for (2) dividers in the bottom of the shelf prior to installation. Fabricate and install (2) adjustable dividers to run from the tracks on the shelf to the compartment ceiling. Install divider attachment points/tracks on shelf, back wall, and ceiling to prevent movement and add durability. Dividers are to be D/A finished flat aluminum.
SR00328414	1	Install a fixed divider in the curbside rear compartment. Divider is to be D/A finished flat aluminum, 16"D and 8" from the left compartment wall. Install rubber bumpers to upper BB area, one per side, to cushion the backboards, 60" from floor to bottom of rubber. Add a retention bar at the top to keep boards from falling out, 65" from floor to bottom of bar. Install an adjustable divider forward of backboard divider, 16"D and 43"H, max travel between divider and right wall.

2000-0611	1	SWEEP OUT COMPARTMENT FLOOR CS REAR COMPT Curbside rear compartment floor is to be sweep-out style.
8000-0090	1	CS INTRMDT COMPT, DELETE Vehicle is not equipped with a curbside intermediate compartment.
8000-0143	1	CURBSIDE FRONT COMPT DOOR DELETE
2900-1141	1	MATEFLEX, TERRA COTTA Terra Cotta Mateflex is to be installed on the floor and shelving of all exterior compartments. To include tapered edge trim pieces where applicable.
SR00328430	1	MATEFLEX NOTE, Trim mateflex around bolt heads so it lays flat.
PAINT AND GRAPHICS		
5000-0004	1	CHASSIS PAINT Red PPG916280 Paint chassis special color as noted above.
5000-0189	1	MODULE PAINT Red PPG916280 The module body is to be painted a special paint color and paint code as noted above.
SR00328348	1	Paint the roof inset white. No white is to be visible from the ground.
SR00328471	1	Install a 9" white Scotchlite beltline stripe with a 1" gold Scotchlite border spaced .5" away from the outer edges of the white stripe. Duplicates previous vehicles.
5000-0014	1	PAINT PANEL: SAMPLE Red PPG916280 A painted test panel shall be prepared with the paint color and number noted above,
SR00328457	1	REFLEXITE CHEVRON, FULL REAR Red, White Install full rear body chevron pattern using Reflexite material. Install inboard or vertical corner posts and below upper drip rail. Install 6" stripes on the rear of the vehicle. Install 6" stripes horizontally at the top and bottom of rear doors. Note location of lettering. Include cutouts for the lettering. Duplicate previous vehicles.
SR00328480	1	COMPARTMENT CHEVRON, Reflexite V98 material Red #12 and Fluorescent Lime #112. Install chevron on all compartment inner panels except upper streetside forward compartment. Install on lower 1/3 portion of panels.
5000-0089	1	REFLEXITE CHEVRON, REAR RISER Red, White Install a Reflexite chevron on the rear riser below the access doors.

2000-0382	1	<p>BENCH CUSHION EDGE TRIM:</p> <p>Trim bench cushion edge with protective aluminum trim, to protect horizontal edge of squad bench cushion from tears.</p>
2000-1791	2	<p>BENCH BACK CUSHION, DOVE GRAY</p> <p>The MBrace backrest cushions for the bench seating positions are to be Dove Gray #8567 in color. Seat cushion and closeout colors are listed separately.</p>
2000-0516	1	<p>S/W ON A TIP OUT DOOR, FORWARD BENCH</p> <p>Install a tip-out under the head of the squad bench facing the aisle. This door will house both sharps and waste containers. Containers are to be supplied by Horton. Paint cabinet to match interior.</p>
2900-0119	1	<p>BENCH CABINET, HINGED DOORS</p> <p>Fabricate and install a bench ceiling cabinet above the squad bench with lift up Lexan doors.</p>
SR00328349	1	<p>Install a surface-mount Knox Med-Vault Model KLS-5541 at the forward end of the bench ceiling cabinet. Includes internal light, ethernet cable, Wi-Fi enabled, and internal antenna. No antenna to be added.</p> <p>Through-bolt the unit to the module ceiling and wall. Reinforce both areas. Requires a hat section for the wall.</p> <p>Run the bench ceiling cabinet closeout along the bottom of the Med-Vault and include the stepwell side of the unit. Duplicate previous units.</p>
SR00328399	1	<p>Install a custom length bench ceiling cabinet with (3) hinged acrylic doors per drawing.</p> <p>Position gas struts as far out of the clear opening as possible. Note the Medvault II at the forward end.</p> <p>CUSTOM CABINET, HEAD OF BENCH</p> <p>Install a cabinet on top of the curbside counter, full width of counter. Cabinet to be 29"W x max" High, and 8" deep. Install (2) vertically hinged polycarbonate doors, self-closing hinges, southco latches, and (1) adjustable shelf as deep as possible.</p>
2900-1130	3	<p>SOUTHCO LATCH OVERHEAD BENCH CABINET</p>

Spec Writer: **John Cox**

Spec Designer:

City of Columbus FY 25/26 Quote

		Install stainless flush mount Southco pull latches on the bench ceiling cabinet.
2900-1135	9	SELF CLOSING HINGE FOR OVERHEAD BENCH CABINET The bench ceiling cabinet door(s) is/are to use self-closing style hinges.
2900-0066	1	DIVIDER TRACK. CABINET OVER BENCH Install adjustable tracks inside of the cabinet referenced above. Tracks are to be routed acrylic material on the bottom and back wall of cabinet. The outer edge of the lower track is to be rounded to avoid any sharp edges. Dividers are selected separately.
2900-0069	9	CABINET DIVIDERS. CABINET OVER BENCH Bench overhead cabinet (3) per section. Fabricate acrylic dividers to fit vertically into the specified track. The dividers shall be adjustable within the track.
SR00328464	1	The specified dividers in the bench ceiling cabinet are to include a 3"H clear acrylic removeable kickplate across the front of the dividers. The dividers are to be .25" acrylic ILOS.
FRONT WALL CABINETRY		
SR00328352	1	Install (3) Crow Model #DGBH-10 wire frame glove box holders on front bulkhead as high as possible over stepwell.
SR00328477	1	CASPR TRANSIT SOLUTION, FRONT WALL Supply and install a CASPR transit 2.0 solution unit on the front wall recessed into the wall with a BKR2 mount. 12v power is required.
SR00328470	1	Crawl-through chassis with a standard sized Passthrough opening through module. Install a hinged acrylic door with southco latch on the inside of the module opening. Include ball catches to hold the door in the open position.
COT MOUNT		
SR00328388	1	Install a customer supplied Stryker battery charger in the center of the upper linen cabinet laying flat on the shelf, hard-wire to 12V. Do not place battery in the charger.
SR00328413	1	Install a .25" reinforcement plate under the floor for possible future install of a bariatric winch system beside the attendant's seat. Install tapping plates in the floor for winch installation. Do not provide any winches or ramps. Prep the floor only.
SR00328418	1	Horton to install complete customer-supplied Stryker Power Load units. Customer-supplied parts includes floor plate kit. Locate centered. Once equipment is installed, trucks must be plugged in according to Stryker recommendation.
VISUAL WARNING		
3000-1230	1	WHELEN PHOTOCELL LOCATED ON OR AROUND THE DRIVER SIDE "A" PILLAR IN THE CAB, PROGRAM FOR USE WITH ALL CAPABLE WARNING LIGHTS. INCLUDE AN OVERRIDE SWITCH ON THE FRONT CONTROL PANEL. Install a Whelen Photocell sensor located on or around the driver side "A" pillar in the cab, dim all capable warning lights to 50% when activated. Include an override switch on the front control panel.

Spec Writer: **John Cox**

Spec Designer:

City of Columbus FY 25/26 Quote

SR00328441	1	PHOTOCELL NOTE Program the rear warning lights to dim to 50%. Include a switch in the front control panel to disable. Include rear aux brake lights.
3400-5006	2	M6 RED/CLEAR LENS Rear face between the riser and the tail lights Install Whelen M6 series LED lights as noted. Lights to be red with clear lenses. Lights to include chrome flanges and flash pattern programmability from the front control panel.
3300-5012	2	M7 RED/CLEAR LENS Over the wheelwells Install Whelen M7 series LED lights as noted. Lights to be red with clear lenses. Lights to include chrome flanges and flash pattern programmability from the front control panel.
SR00328402	1	Install a Whelen M6V2AC Amber combo light over the rear doors to be used as a K light and a load light.
3000-5018	4	M9 RED/CLEAR LENS Rear face in upper outboard corners (2) and at rear window level (2) Install Whelen M9 series LED lights as noted. Lights to be red with clear lenses. Lights to include chrome flanges and flash pattern programmability from the front control panel.
3200-5018	6	M9 RED/CLEAR LENS Front face (R)(R)(R)(FLOOD)(R)(R)(R) Install Whelen M9 series LED lights as noted. Lights to be red with clear lenses. Lights to include chrome flanges and flash pattern programmability from the front control panel.
SR00328462	1	Install (6) Whelen M9V2RC red combo lights (3) per side per drawing.
SR00328359	1	Program all warning lights to duplicate previous vehicles. Program to retain all lights except for the clear warning lights and headlight flasher in secondary mode. NOTE, program first truck at inspection, duplicate pattern on all subsequent units.
SR00328367	1	Install (2) Whelen #IONS MCR grille lights with clear lens. Locate vertically on the front bumper outboard of the air horns.
SR00328456	1	Install a Whelen 23" D6 LINZ6 red Dominator lightbar on the top of the bumper. Program to operate as grille lights.
SR00328377	1	Install R/W M4 Intersection lights on the chassis fenders. Red is to face forward. Order with clear lenses.
AUDIBLE WARNING		
2000-0433	1	AIR HORNS: UNDER BUMPER FORD F-SERIES Install (2) Buell #1061 trumpets under the front bumper recessed into the air dam valance. System to include a #16122 compressor and remote air tank. The air horns can only be activated when the vehicle is in gear. Activate through a chrome push button on the console or through a foot switch if selected.
SR00328448	1	AIR HORNS, Activate through a chrome push button on the console. Install using a Velvac 1488CI tank.

Spec Writer: **John Cox**
