All MAJ

A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract.

The purpose of this legislation is to enable the Director of the Department of Public Utilities to enter into a contract to acquire professional services for conducting a department-wide environmental audit. The audit will include a review of applicable federal and state environmental laws and rules for utility facilities and operations, inspection visits to all facilities, and delivery of a final report, including recommendations for establishing regulatory compliance best practices to be managed and continued by the Regulatory Compliance Unit. The total project amount is \$542,000, involving one prime contractor and 5 subcontractors, devoting approximately 4900 labor hours, with work projected to be concluded in 34 weeks from the date of the notice to proceed. Five firms bid on the project and seven city employees served on the evaluation committee that selected this consultant. The projected date of completion of the project is April 2007

A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.
