5. **A full description of all work to be performed including a full description of work to be performed during any known phasing of the contract. The planning area should also be listed as well as any street or neighborhood names.**

This contract is for engineering consulting services for the design of a water distribution transmission main that will be constructed in conjunction with the construction of the City's future fourth water plant. The transmission main will extend from the fourth water plant located at 5992 Home Road, Delaware, OH 43015, to a connection point in the City's existing water distribution system, specifically the Cleveland/Henderson pressure district.

The majority of the transmission main will be located outside the City of Columbus. The portion within the City of Columbus will be located within the Hayden Run Planning Area.

The initial contract, Phase 1, will be for preliminary design services. There are two planned contract modifications. The first contract modification will be for Phase 2, detailed design

services. The second contract modification will be for Phase 3, engineering services during construction.

6. A narrative timeline for the contract including a beginning date, beginning and ending dates for known phases of the contract and a projected ending date.

The duration of the initial contract for Phase 1 – Preliminary Design Services is 18 months and is expected to begin in January, 2023. Phase 2 – Detailed Design Services (Modification No. 1) is expected to have a duration of approximately 24 months. Phase 3 – Engineering Services during Construction (Modification No. 2) is expected to have a duration of approximately 28 months. December, 2028 is the estimated ending date of the agreement based on the total term.

7. A narrative discussing the economic impact or economic advantages of the project; community outreach or input in the development of the project; and any environmental factors or advantages of the project.

This project has been scoped with a significant public outreach program. This outreach program will include public meetings, advisory group briefings for stakeholders, development of a project website, fact sheets, pop-up engagement at neighborhood gatherings, e-newsletters, social media posts, and news releases.

8. An estimate of the full cost of the Contract including a separate estimate of any and all phases or proposed future contract modifications.

Cost summary:

Original Contract – Preliminary Design	\$ 5,399,068.91
Modification No. 1 – Detailed Design	\$ 8,000,000.00 (estimated)
Modification No. 2 – Services during Construction	\$ 2,500,000.00 (estimated)
CONTRACT TOTAL	\$15,899,068.91 (estimated)

9. Subconsultant information

Please refer to Utilization Reporting Form.
