STATEMENT OF HARDSHIP

Application No. CV23- 045

Columbus City Code Section 3307.10 - Variances by City Council.

City council may grant the following zoning variances:

- A. Permit a variation in the yard, height or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.
- B. Permit a use of the property not permitted by the zoning district established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the comprehensive plan.

Before authorizing any variance from the Zoning Code in a specific case, city council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals or welfare of the inhabitants of the city.

In granting a variance pursuant to this section, council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare.

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are not included, a new application (and applicable fees) will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners, and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Exhibit B

Statement of Hardship

CV23-045, 299 Walhalla Road, Columbus, OH 43202

The 0.07 acre +/- (3,067 SF +/-) site (PID: 010-303217) is located on the east side of an unnamed alley east of 299 Walhalla Road (PID: 010-001827). Applicant owns 299 Walhalla Road and will be moving to the house at 299 Walhalla Road. Applicant also owns the subject parcel (PID: 010-303217), which is a vacant lot. The Public Service Department / Address Section has asked for this variance application to be addressed with the house parcel because the alleys to the east are unnamed. Applicant proposes to build a detached garage on PID: 010-303217 for use with his private residence at 299 Walhalla Road (PID: 010-001827). This variance application is required because an accessory garage is proposed off-site (PID: 010-303217) across an alley from the primary dwelling at 299 Walhalla Road (010-001927).

We are creating our forever home as my wife and I have 2 kids: Quinn who is 2 years old and Simon who is 3 weeks old. We had to demo our old garage at 299 Walhalla Road (PID: 010-001827) for the renovations and geothermal system installed in the new house. The parcel we would like to put the new garage on is across the alley from the main house. We would also like some backyard on the house parcel without the garage.

Applicant has a hardship and practical difficulty with compliance with the cited Zoning Code sections due to this unique circumstance of owning a lot across an alley from the parcel with the single family dwelling for which the private garage is accessory.

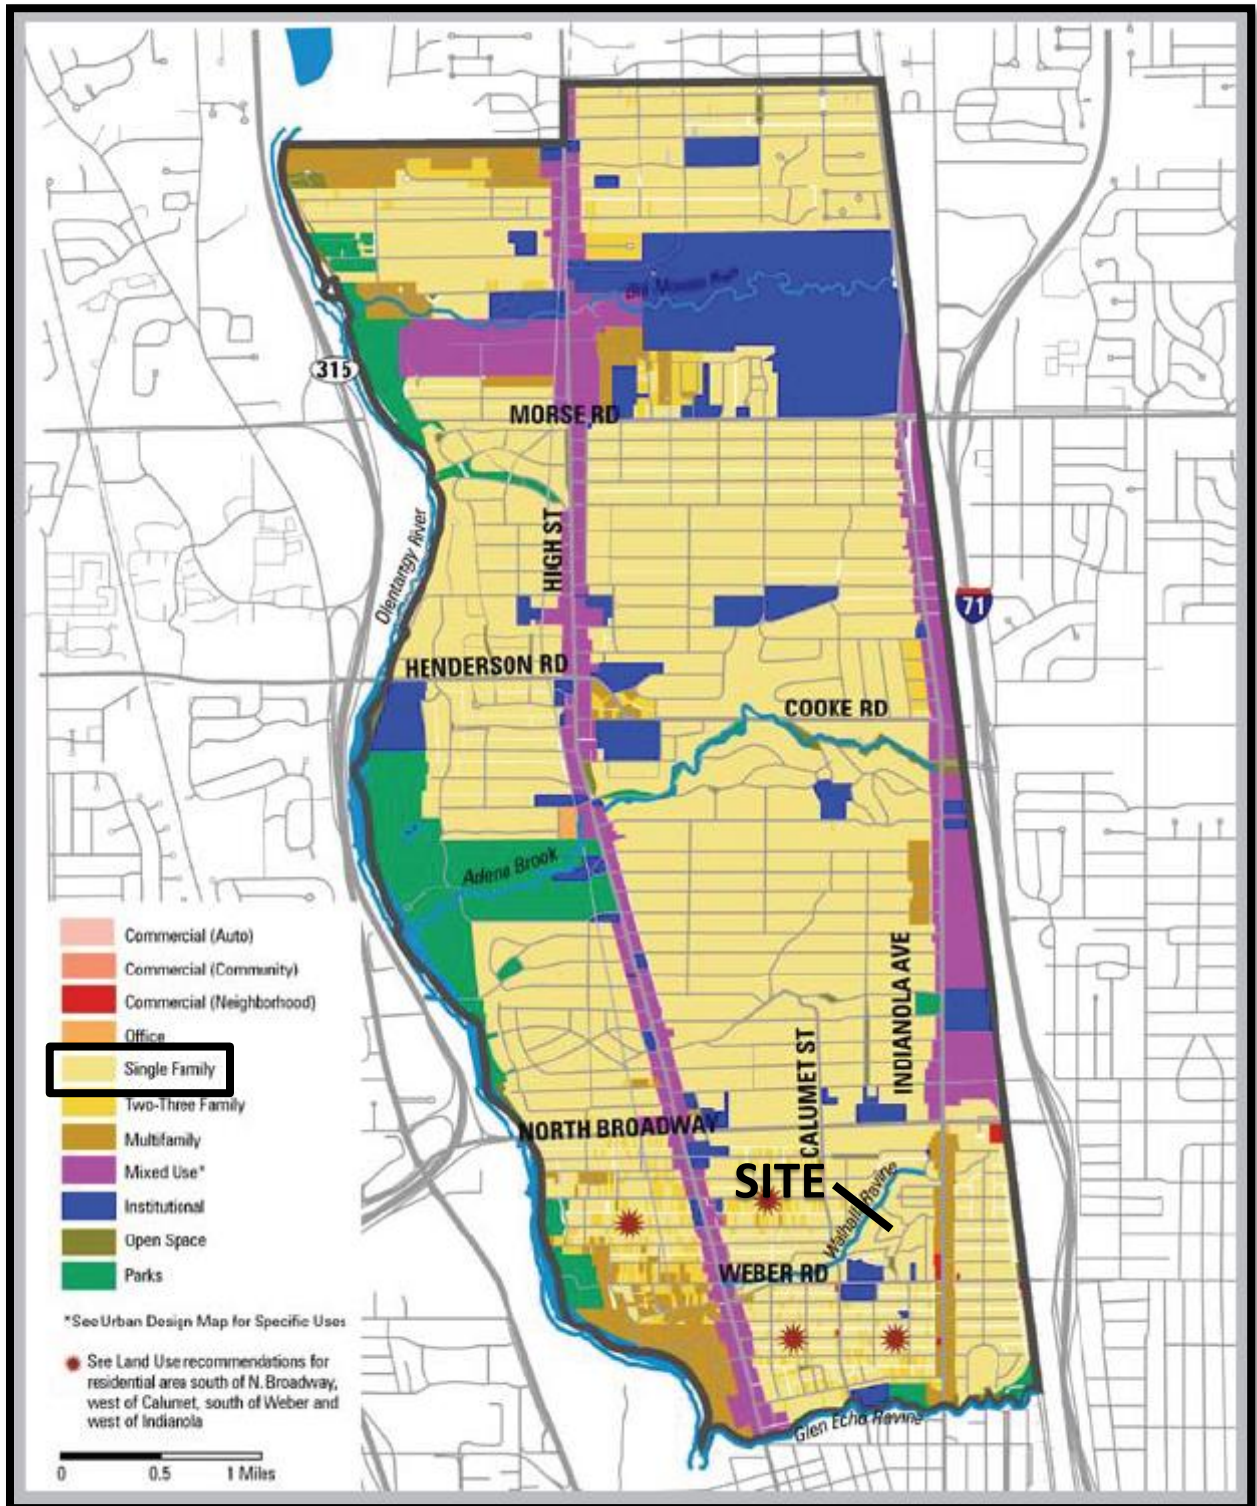

Applicant requests variances from the following sections of the Columbus Zoning Code:

- 1). Section 3332.035, R-3, Residential District, to permit an accessory structure (private garage) on a parcel off-site of the primary parcel with the single family dwelling to which the proposed garage is accessory.
- 2). Section 3332.26, Minimum Side Yard Permitted, to reduce the minimum side yard at the southwest corner of the proposed garage from 3' to 1' – 5", due to the irregular shape of the parcel.
