John,

From what I have been told, there are no CNG or alternate fuel options at this point, however we can add it to the specs to see if we get any vendors to bid on that engine option.

Adam these look like what you're asking for a PT125R—Is there any CNG or Propane fueled available for this type of equipment? If so Fleet prefers the green technology. If not Fleet approves as is.

Thanks
John

Subject: Rubber Tire Roller Spec Approval

Good Morning John,

Please find attached specifications for two (2) rubber tire rollers Street Maintenance is seeking to purchase. So you are aware we spec'd out a Volvo PT125R. Street Maintenance currently has Ingersoll-Rand PT125R non-articulating pneumatic rubber tire rollers but they are now produced

by Volvo; Ingersoll-Rand no longer produces tire rollers. Let me know if you have any questions or concerns. These are pretty much finalized except we have a couple items to talk to with Purchasing. Thank you.
