Solution Summary

*myAvatar PM
myAvatar Practice Management (PM) is a comprehensive electronic health record and practice management solution that supports your organization's operational and financial processes. Created specifically for the health and human services community, myAvatar PM maximizes the efficiency of each and every user. Whether you are coordinating consumer schedules, accessing charts, measuring key performance indicators, checking eligibility, tracking claims, monitoring system status or even doing all of these at the same time, you can customize myAvatar to best meet your needs. myAvatar PM is the first step toward a paperless workflow.

*myAvatar 2014 ONC Certified EHR (CEHRT) Edition
myAvatar 2014 ONC CEHRT Edition is a comprehensive electronic health record and practice management solution that meets all requirements for Meaningful Use. The certified edition includes all components to meet the criteria specified for both Stage 1 and Stage 2 reporting, including ePrescribing, consumer portal, transitions of care and immunizations reporting. The complete certified edition includes the following OrderConnect, CareConnect, myHealthPointe and CareGuidance.

*myAvatar CWS
Avatar Clinician Workstation (CWS) is Netsmart's electronic health record and integrates the clinical tools necessary for an interdisciplinary approach to the delivery of health and human services. Functionality includes: treatment/care planning, individual and group progress notes, assessments, nursing reports and workflow management. In addition, the Avatar CWS supports electronic views of laboratory results and other interdepartmental data, and has optional features such as Myelodysplastic syndromes (MDS) entry/tracking, order entry and pharmacy integration.

*Hosting Disaster Recovery (DR)
Hosting Disaster Recovery (DR) is the primary offering for Plexus Cloud hosted solutions and includes full redundancy, including replication to a secondary data center, so data can be accessed in the event of a disaster.

*Diagnosis Content on Demand (ICD-10 and DSM-5)
On October 1, 2015, the industry will be moving to ICD-10 codes for diagnosis and inpatient procedures. In addition, the American Psychiatric Association has recently released DSM-5 as a replacement to the current industry standard DSM-IV. The content included in this subscription will provide the necessary cross-mappings, updates and clinician friendly terms to manage the transition across the different diagnosis vocabularies.

The Diagnosis Content on Demand subscription service includes access to copyrighted DSM content for diagnosis entry. This quote assumes that a specified number of users (identified herein) from your total end user license count access DSM content for recording diagnosis. If more than the specified number of your total users will require access, an additional DSM surcharge will apply. A quote will be supplied under separate cover upon request.

One of the following Netsmart Enterprise Solution Software, System versions are required for the ICD-10 Upgrade: ·

- myAvatar
- TIER WFS Platform
- myEvolv version 9.0.612
- INSIGHT version 7.1.6

*Wiley Libraries
Treatment Planners are a series of software datasets published by John Wiley & Sons, Inc., which provide an array of treatment planning components (behavioral definitions, long-term goals, short-term objectives and therapeutic interventions) for behavioral health problems encountered in clients in behavioral health care settings. The treatment planners have been integrated into Netsmart software solutions as an add-on subscription service. All Wiley Treatment Planners made available by Netsmart are incorporated into this Subscription Agreement. Should implementation assistance be required, additional budget will be required and a separate quote will be supplied. Upon Netsmart's request and with reasonable notice, clients agree to provide Netsmart with verification as to the number of users accessing the licensed program and/or subscription or allow Netsmart/its authorized agent to independently audit the client's database to verify the same.
