STATEMENT OF HARDSHIP

Application #: CV18-099

Chapter 3307 of the Columbus Zoning Code

Section 3307.10 Variances by City Council

A. Permit a variance in the yard, height, or parking requirements of any district only in conjunction with a change in zoning or a use variance and only where there are unusual and practical difficulties or unusual hardships in the carrying out of the zoning district provisions due to an irregular shape of lot, topography, or other conditions, providing such variance will not seriously affect any adjoining property or the general welfare.

B. Permit a use of the property not permitted by the Zoning District established on the property if such use will not adversely affect the surrounding property or surrounding neighborhood and if Council is satisfied that the granting of such variance will alleviate some hardship or difficulty which warrants a variance from the Comprehensive Plan.

Before authorizing any variance from the Zoning Code in a specific case, City Council shall first determine that such variance will not impair an adequate supply of light and air to the adjacent property, unreasonably increase the congestion of public streets, increase the danger of fires, endanger the public safety, unreasonably diminish or impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus.

In granting a variance pursuant to this section, Council may impose such requirements and conditions regarding the location, character, duration, and other features of the variance proposal as Council deems necessary to carry out the intent and purpose of this Zoning Code and to otherwise safeguard the public safety and welfare

List all sections of Code to be varied and explain your reasoning as to why this request should be granted.

PLEASE NOTE: It is the applicant's responsibility to identify all variances required for the project. If any necessary variances are discovered after your application is approved, a new application will be required.

I have read the foregoing and believe my application for relief from the requirements of the Zoning Code contains the necessary hardship, will not adversely affect surrounding property owners and will comply with the variance(s) requested as detailed below (use separate page if needed or desired):

Statement in Support of Variances

We are proposing to add a second floor sleeping room atop the existing garage. There is precedent in this particular alley for 1 ½ to two story carriage houses and homes and the 1 ½ story garage we are proposing fits well within the fabric of neighborhood. This proposal will not modify the essential character of the neighborhood. There is an existing parking lot behind this property and easements have been obtained to allow access to the rear of the subject property. This is an unusual condition in that most properties do not border on a parking lot. Allowing the maneuvering variances on this adjacent parking lot is beneficial to the neighborhood to allow for off street parking for this property.

The delivery of government services should not be affected by this proposal. The owner purchased the property aware of the zoning restrictions but also with the knowledge that similar homes existing in the neighborhood.
